## WELCOME TO THE LOVEPOP FAMILY

### Who we are

Lovepop is on a mission to create one billion magical moments with an imagination meets engineering approach to designing unforgettable pop-up cards. Founded by best friends and naval architects, Wombi Rose and John Wise, Lovepop creates beautiful laser-cut pop-up cards designed with shipbuilding software and handcrafted in the ancient art form of kirigami.

We have hundreds of unique designs, ranging from whimsical to sentimental, to help make every occasion magical - whether it's a birthday, holiday, anniversary, or any milestone for someone you love.

### Where you've seen us

We made a deal with Kevin "Mr. Wonderful" O'Leary on ABC's "Shark Tank" in 2015, and have since made appearances on "TODAY Show," "The View," "Good Morning America," CNBC, and "Innovation Nation" with Mo Rocca, among others. Our pop-up cards have revealed winners at the Billboard Music Awards, dazzled shoppers with Henri Bendel's holiday display, and showcased the power of innovative technology with Microsoft. You may have also seen our designs shared on social media. Once you open a Lovepop card, it's hard to keep it to yourself!

### Lovepop + You

Our retail partners are a part of our family, just like our customers and our team at Lovepop. We run our own production facility, which means that from creation to distribution, our cards are crafted by members of our own team, who are committed to the quality that your magical moments deserve. From fast and easy shipping to unique merchandising solutions to always new designs promised to delight, we are dedicated to your success. Let's create magical moments together.

Since our appearance on Shark Tank, we've sold over 6 million cards.
